4 FIRST AID MEASURES

Inhalation: Remove victim to fresh air. If symptoms persist, call a physician

Eye Contact: IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. Consult a doctor immediately.

Skin Contact: Thoroughly wash exposed skin with soap and water. Remove any contaminated clothing and wash before reuse. If irritation persists seek medical attention

Ingestion: Immediately call physician. DO NOT induce vomiting. Give several glasses of water. Never give anything by mouth if victim is unconscious or convulsing.

Most Important Symptoms and Effects: Severe burns to eyes, skin and respiratory tract.

Notes to Physician: Treatment based on judgment of attending physician.

5 FIRE FIGHTING MEASURES

Suitable extinguishing media: Use dry chemical, CO₂, water spray (fog) or foam.

Unsuitable extinguishing media: not known

Special exposure hazards: This product causes burns of eyes, skin and mucous membranes. Thermal decomposition may

lead to release of irritating and toxic vapors. In the event of fire and/or explosion do not breathe fumes.

| | |
|----------------------------------|--|
| Special safety equipment: | Self contained breathing apparatus and full protective clothing required for extinguishing fire. |
| Fire and explosion: | None |
| Further information: | None |

6 ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures

General Measures: Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in Sections 7 and 8

For Non-Emergency Personnel

| | |
|------------------------------|---|
| Protective Equipment: | Wear adequate personal protective equipment |
| Emergency Procedures: | Wear adequate personal protective equipment |

For Emergency Personnel

| | |
|-----------------------------------|---|
| Protective Equipment: | Wear adequate personal protective equipment |
| Emergency Procedures: | Wear adequate personal protective equipment |
| Environmental Precautions: | Prevent release to the environment if possible. Dike large spills to prevent material from entering streams or sewer systems. |

Methods and Material for Containment and Cleaning Up

| | |
|-------------------------------------|---|
| For Containment: | Soak up inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal |
| Methods for Cleaning Up: | Contain spillage and then collect with noncombustible absorbent material(e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local/national regulation. Flush away traces with water. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. |
| Reference to Other Sections: | None |

7 HANDLING AND STORAGE

Precautions for safe handling: Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Avoid splashes or spray in enclosed areas. Ensure good ventilation/exhaustion at the workplace.

Information about fire and explosion protection: none

Requirements to be met by

storerooms and receptacles: Keep container closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep away from incompatible materials such as alkalis, reducing and oxidizing agents, bleach and ammonia. Do not mix with any other chemicals

Information about storage in one common storage facility: unknown

Further information about storage conditions: none

Specific end use: not applicable

EXPOSURE CONTROLS / PERSONAL PROTECTION

Respiratory protection: Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limit are exceeded or if irritation or other symptoms are experienced.

Hand protection: Wear coveralls with long sleeves, gauntlets and gloves of PVC or neoprene. Vinyl disposable gloves, nitrile or natural rubber gloves can also be used.

Eye protection: Use chemical goggles and/or a full face shield.

Skin protection: Wear protective clothing, including boots or safety shoes with polyvinyl chloride (PVC) or neoprene. Wear coveralls with long sleeves, gauntlets and gloves of PVC or neoprene.

Working hygiene: Handle in accordance with good industrial hygiene and safety practices.

Exposure Guidelines: A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.
